Technical function and outdoor fashion have a new accessory: protective masks. We have spent the last few months designing a mask collection suitable for all-day wear in high output activities. Elevating performance standards, our Design & Development team were challenged to find new technologies, durable, breathable and lightweight fabrics, and to reduce the thermal burden associated with traditional concepts. They met that challenge and now the very best in technical apparel can be paired with the very best in protective face coverings. So whether you're commuting to work, exploring local trails, or targeting new peaks, STORMTECH has a mask that will keep you protected, comfortable, and performing to new levels.

Technical function and outdoor fashion have a new accessory: protective masks. Now the very best in technical apparel can be paired with the very best in protective face coverings.

STAY SAFE. STAY HEALTHY. STAY ACTIVE.

ACTIVATED CARBON FILTERS  PM-25

5 LAYERS OF FILTRATION PROTECTION

PM2.5 activated carbon filters offer protection that’s practical – these disposable filters are flat, so they take up less space than standard respirators. Engineered for maximum filtration efficiency, they can be used continuously for 16-24 hours or around one week of occasional use.

COST (MSRP)  

10 PC Pack: $9.00 [A] /Unit

Packing: 10 packs (100 filter)  
Minimum Order Qty: 10 packs  
Samples / In Stock: July 15, 2020
